BLUE LAKE METROPOLITAN DISTRICT NO. 5
SERVICE PLAN

I. INTRODUCTION

The District shall be named the Blue Lake Metropolitan District No. 5 ("District 5" or "the District"). The District shall be formed in conjunction with two other metropolitan districts, Blue Lake Metropolitan District No. 4 ("District 4") and Blue Lake Metropolitan District No. 6 ("District 6"). Together, Blue Lake Metropolitan District Nos. 4, 5, and 6 will be referred to as "the Districts," and the land encompassed within the Districts shall be referred to as the "Blue Lake New Development." The purpose of District 5 is to finance, construct and install public improvements, including streets and traffic signals, and water, sewer, storm drainage and park, open space and recreation facilities for the Blue Lake New Development. Public improvements and facilities constructed or acquired by the District may be owned and maintained by one or more of the Districts, or may be dedicated for ownership and maintenance to the Town of Lochbuie, Colorado ("Lochbuie" or the "Town"), or to other non-profit or governmental entities, for the use and benefit of the Blue Lake New Development residents and taxpayers. The District shall have all of the powers of a metropolitan district described in §§ 32-1-1001 and -1004, C.R.S., except that the District shall not provide fire protection and emergency facilities or services, which fire protection services will be provided by other appropriate entities.

Blue Lake Metropolitan Districts Nos. 1, 2 and 3 were organized in 2004 and serve the currently-existing Blue Lake development ("Blue Lake Old Development"). Blue Lake Metropolitan Districts Nos. 4, 5 and 6 will serve future development within the overall project.

Pursuant to the requirements of the Special District Control Act, § 32-1-201, *et seq.*, C.R.S., this Service Plan consists of a financial analysis and an engineering plan showing how the proposed facilities and services of the District will be provided and financed. The following items are also included in this Service Plan:

1. A description of the proposed services;
2. A financial plan showing how the proposed services are to be financed, including the proposed operating revenue derived from property taxes for the first budget year of the District;
3. Preliminary engineering drawings showing how the proposed services are to be provided;

4. A map of the proposed District boundaries and an estimate of the population and valuation for assessment of the proposed District;

5. A general description of the facilities to be constructed and the standards for construction, including a statement of how the facility and service standards of the proposed District are compatible with facility and service standards of the Town and of any municipalities and special districts which are interested parties pursuant to § 32-1-204(1), C.R.S.;

6. A general description of the estimated cost of acquiring land, engineering services, legal services, administrative services, initial proposed indebtedness and estimated proposed maximum interest rates and discounts, and other major expenses related to the organization and initial operation of the District; and

7. A description of any arrangement or proposed agreement with any political subdivision for the performance of any services between the proposed District and such other political subdivision, and, if applicable, a form of the agreement.

II. PURPOSE OF THE PROPOSED DISTRICT

District 5, together with Districts 4 and 6, will finance the construction of public improvements within the Blue Lake New Development for the use and benefit of the Blue Lake New Development's residents and taxpayers and the owners of real property within the Blue Lake New Development through the issuance of indebtedness as set forth in Section V, "Financial Information," and shall provide for maintenance of certain public improvements as further described herein.

The District will dissolve when there are no maintenance obligations, financial obligations, outstanding bonds or other obligations outstanding, and upon a determination by the Town that all of the purposes for which the District was created have been accomplished, and that all financial obligations are defeased or secured by escrowed funds or securities meeting the investment requirements in part 6 of article 75 of title 24, C.R.S. The District's dissolution prior to payment of all debt will be subject to approval of a plan of dissolution in the District Court of Weld County, pursuant to § 32-1-704, C.R.S. The District will work closely and cooperate with the Town to serve and promote the health, safety, prosperity, security and general welfare of the Blue Lake New Development's inhabitants.

III. NEED FOR THE PROPOSED DISTRICT

While the area to be served by the Districts is located entirely within the boundaries of the Town, the Town does not consider it feasible or practical to provide the Districts with certain services and/or facilities described in this Service Plan. Therefore, it is necessary that the Districts be organized to provide their inhabitants with the facilities and services described in this Service Plan.

IV. BOUNDARIES, POPULATION & VALUATION

The boundaries of the District are located entirely within the Town. **Exhibits A, B and C** provide a vicinity map, a boundary map and a legal description of the District's potential overall boundaries (together with District 4 and 6). The initial boundary of the District will be a one-acre

parcel in the northwestern area of the overall boundaries as shown on **Exhibit B**. After organization, the District may include all or a portion of the parcel of the land more particularly described in the legal description attached as **Exhibit C** (the "Inclusion Property"), and as shown on **Exhibit B**, the boundary map. The portion of the Inclusion Property that is not included into the District will be included into District 4 or District 6. The boundaries of the Districts will not overlap. Letters from the owners of the property within the District boundaries consenting to the formation of the District are attached as **Exhibit D**.

The District may be developed for residential and commercial purposes. The estimated daytime population of the three Districts at full build-out is two thousand fifty (2,050) people. The combined estimated assessed value at full build-out is Twenty-One Million, Four Hundred Sixty-Six Thousand, Seven Hundred Forty-Eight Dollars (\$21,466,748.00). The property is currently zoned to Planned Unit Development. For the purpose of this Service Plan and the Financing Plan herein, the current assessed value of the property within the boundaries of the District is deemed to be Zero Dollars (\$0.00).

V. DESCRIPTION OF PROPOSED FACILITIES

a. Type of Improvements

The District will provide for the construction, acquisition and installation of public improvements, including streets and traffic signals, and water, sewer, storm drainage and park and recreation facilities (as defined in § 32-1-1004(2), C.R.S.) within the Blue Lake New Development. The District may also maintain public improvements within and without the Blue Lake New

Development. Preliminary engineering estimates based on applicable construction standards have been prepared and are attached hereto and incorporated herein as **Exhibit E**. These estimates list the facilities that the District, subject to development approval of the Town, may provide for the Inclusion Property, including the costs in current dollars of each, together with an explanation of the methods, basis and/or assumptions used. Subject to the debt limitations set forth in Section V, the District will be authorized to fund any combination of the improvements. The combined total estimated cost of the improvements is Twenty-Nine Million One Hundred Eighty-One Thousand Four Hundred Forty-Four Dollars (\$29,181,444.00). The District will seek voter approval for authorization to issue debt sufficient to finance the cost of the improvements as set forth in Section V, entitled "Financial Information." The Town will not be responsible for assuming any of the costs of the improvements funded by the District.

Maps showing the preliminary location of the public improvements to be financed by the Districts are attached hereto and incorporated herein as **Exhibit F**. The District shall be authorized to construct all or any portion of the public improvements as generally shown on **Exhibit F**, subject to the specific final design and approval thereof by the Town. Phasing of construction shall be determined by the District to meet the needs of residents and taxpayers within the Blue Lake New Development. The engineering exhibits provided herein are preliminary in nature, and the District shall have the authority, without amending this Service Plan, to defer, forego, reschedule or restructure the financing and construction of certain improvements and facilities, to better accommodate the pace of growth, resource availability and potential inclusions of property within the District. At this time, it is not known what portion of the Inclusion Property will be included in

the boundaries of the District, but it is anticipated that all of the Inclusion Property will be included in one of the Blue Lake Metropolitan Districts Nos. 4-6. Accordingly, the Service plan assumes inclusion of the entire Inclusion Property. In any event, no property within the Blue Lake New Development will be included in more than one of the Districts, except for the land contained within the initial boundaries.

b. Construction Standards

The District will ensure that the proposed improvements are designed and constructed in accordance with the standards and specifications of the Town, or as approved by the Town for the development, and in accordance with standards and specifications of other governmental entities having jurisdiction over the District. The District will obtain approval of civil engineering plans and a permit for construction and installation of public improvements from the Town.

c. Dedication of Improvements

It is anticipated that the District may dedicate certain improvements to the Town or its designee upon completion of their construction and installation. Water, sanitary sewer, streets, parks and open space improvements may be dedicated to the Town or other appropriate entity upon completion of their construction and installation, together with rights-of-way and easements for the facilities, to the extent the District has the necessary property interest to permit such dedication. The District may dedicate storm drainage facilities to the South Beebe Draw Metropolitan District or to another appropriate entity, upon the completion of construction and installation of such storm

drainage improvements, together with rights-of-way and easements for the facilities; to the extent the District has the necessary property interest to permit such dedication.

d. Maintenance of Public Improvements

The District shall be authorized to own and maintain all public facilities constructed, installed or acquired by the District and not otherwise dedicated for ownership and maintenance to other appropriate governmental entities.

e. Services to be Provided by other Governmental Entities

The District will receive storm drainage services from South Beebe Draw Metropolitan District and fire protection services from Hudson Fire District. Water, sewer and emergency services will be provided by the Town.

VI. FINANCIAL INFORMATION

This section describes the nature, basis, method of funding, and debt and mill levy limitations associated with the construction, operation and maintenance of the improvements by the District. A detailed Financing Plan and statement of assumptions is attached hereto and incorporated herein as **Exhibit G**.

a. Debt Limitation

The total combined general obligation debt of the three Districts shall not exceed Nineteen Million Dollars (\$19,000,000.00) ("Debt Limitation"), unless the District receives the prior approval of the Town. Once any District uses a portion of the Debt Limitation such portion will no longer be available for use by any of the other Districts.

b. Debt Issuance

The Districts intends to issue multiple series of bonds totaling approximately Fifteen Million Eight Hundred Twelve Thousand Dollars (\$15,812,000.00). The proposed maximum voted interest rate is estimated at eighteen percent (18%) and the maximum underwriting discount at four percent (4%). The actual interest rates and discounts will be determined at the time the bonds are sold by the Districts and will reflect market conditions at the time of sale. Refunding bonds may be issued by the Districts to defease original issue bonds in compliance with applicable law. In addition to bonds, the Districts may also issue notes, certificates, debentures or other evidences of indebtedness. The Debt Limitation exceeds the amount of bonds anticipated to be sold, as shown in the Financial Plan, to allow for unforeseen contingencies, increases in construction costs due to inflation, and all costs of issuance, including capitalized interest, reserve funds, discounts, refunding, legal fees and other costs of issuance.

c. District Revenue

The District intends to rely on property taxes as its primary source of revenue. Additionally, the District will receive revenue from specific ownership taxes and fees. The District will impose a mill levy (a mill being equal to 1/10 of 1 cent) on all taxable property in

the District as a primary source of revenue for repayment of debt service and for operations and maintenance. Although the mill levy imposed may vary depending on the phasing of facilities anticipated to be funded, it is estimated that a mill levy of 55.277 mills ("Mill Levy Cap"), adjusted as described below, would produce revenue sufficient to support debt service and operations and maintenance expenses through the bond repayment period.

Any contractual obligations the District may have to levy general ad valorem property taxes for the payment of any bond or other obligations that are payable from the District's property taxes ("General Obligation Debt") shall be limited to an annual ad valorem mill levy in an amount not to exceed 50.277 mills (the "Limited Debt Mill Levy"), for so long as the total principal amount of all of the District's General Obligation Debt, at the time of issuance, exceeds fifty percent (50%) of the valuation for assessment of the taxable property in the District, as certified by the County Assessor. In addition, for a period of ten (10) years following the issuance of any General Obligation Debt, the mill levy imposed for operations and maintenance shall be limited to 5.000 mills (the "Limited O&M Mill Levy") without a corresponding reduction in the Limited Debt Mill Levy, so that the combined total mill levy will not exceed the Mill Levy Cap of 55.277 mills. The Mill Levy Cap, the Limited Debt Mill Levy and the Limited O&M Mill Levy may be adjusted to take into account legislative or constitutionally imposed adjustments in the assessed values or the method of their calculation, and 2018 shall be the base year for calculation of any adjustments. The District may provide that at such time as the assessed value of the District is such that all or any portion of Limited Debt Mill Levy for General Obligation Debt could be issued as unlimited mill levy General Obligation Debt

pursuant to the above formula, the mill levy to pay all or such portion of the Limited Debt Mill Levy General Obligation Debt may become unlimited at that time. The District may also provide that beginning ten (10) years after the issuance of any General Obligation Debt, the mill levy imposed for operations and maintenance of the District may become unlimited subject to the Mill Levy Cap. Except as otherwise limited by law: (1) if the District does not require the entire Limited Debt Mill Levy for the purposes of servicing any outstanding indebtedness, it may utilize that portion of the Limited Debt Mill Levy not required for debt service for the purposes of operations and maintenance expenses of the District; and (2) the District's Board of Directors, in its sole discretion, may utilize whatever portion of the Limited O&M Mill Levy that is not required for operations and maintenance purposes for the purposes of servicing debt.

In the event a constitutional or statutory change in the method of calculating assessed valuation is implemented after the date this Service Plan is approved the Mill Levy Cap, Limited Debt Mill Levy and Limited O&M Mill Levy may be increased or decreased, as determined by the Board of Directors of the District, to reflect such change. Such determination shall be made in good faith, shall be binding and final in the absence of manifest error, and shall be made so that, to the extent possible, the actual tax revenues generated by the mill levy, as adjusted, are neither diminished nor enhanced as a result of such changes. For the purposes of making an adjustment in the assessed valuation, a change in the ratio of actual valuation to assessed valuation shall be deemed to be a change in the method of calculating assessed valuation, and the year 2018 shall be the base year for the ratio for assessment of valuation.

d. Security for Debt

The District will not pledge any Town funds or assets for security for the indebtedness set forth in the Financing Plan of the District.

e. Financing Plan

The Financing Plan, prepared by the District's Financial Consultant and attached as **Exhibit G**, sets forth the following information:

1. The total projected amount of debt to be issued during the six (6) year period commencing with the formation of the District;
2. All proposed sources of revenue and projected District expenses, as well as the assumptions upon which they are based, for at least a ten (10) year period from the date of organization of the District;
3. The dollar amount of any anticipated financing, including capitalized interest, costs of issuance, and any expenses related to the organization and initial operation of the District;
4. A detailed repayment plan covering the life of any financing, including the frequency and amounts expected to be collected from all sources; and
5. The amount of any reserve fund and the expected level of annual debt service coverage that will be maintained for any financing.

f. Services of District

The District will require sufficient operating funds to maintain and operate improvements not otherwise dedicated, and to provide administration of the district. The costs are expected to include organizational, legal, engineering, accounting, and the costs of compliance with state

reporting. The first year's operating budget is estimated to be Thirty Thousand Dollars (\$30,000.00). The Financing Plan sets forth the anticipated operating revenues.

VII. LANDOWNER PUBLIC IMPROVEMENTS

The creation of the District shall not relieve the Organizers, their successors or assigns of the obligation to construct public improvements required by any annexation or other subdivision improvement agreement, except those public improvements that are assignable to the District by the Organizers under the Annexation and Development Agreement for Blue Lake, by and between the Town of Lochbuie, Lochbuie Land I, LLC, Henry Beierle, Jr. and Melita Beierle, dated as of March 31, 2004 and recorded by the Weld County Clerk and Recorder's Office at 3168138 on 04/06/2004 at 11:26AM, which has been approved by the Town.

VIII. ANNUAL REPORT

a. General.

The District shall be responsible for submitting an annual report to the Town Clerk no later than September 1, which annual report shall reflect activity and financial events of the District through the preceding December 31 (the "report year").

b. Reporting of Significant Events.

The annual report shall include the following:

1. A narrative summary of the progress of the District in implementing its Service Plan for the report year;
2. Except when exemption from audit has been granted for the report year under the Local Government Audit Law, the audited financial statements of the District for the report year including a statement of financial condition (i.e., balance sheet) as of December 31 of the report year and a statement of operations (i.e., revenues and expenditures) for the report

year. However, if an exemption from audit has been granted for the report year by the Office of the State Auditor, then the District shall include a copy of the submitted application for exemption from audit and the State's letter confirming acceptance of such application;

3. Unless disclosed within a separate schedule to the financial statements, a summary of the capital expenditures incurred by the District in development of any public improvements in the report year, as well as any public improvements proposed to be undertaken in the five (5) years following the report year;
4. Unless disclosed within a separate schedule to the financial statements, a summary of the financial obligations of the District at the end of the report year, including the amount of outstanding debt, the amount and terms of any new debt issued in the report year, the amount of payment or retirement of existing debt of the District in the report year, the total assessed valuation of all taxable property of the District as of January 1 of the report year and the current mill levy of the District pledged to debt retirement in the report year;
5. The District's budget for the calendar year in which the annual report is submitted;
6. A summary of the residential development in the District for the report year;
7. A summary of all fees, charges and assessments imposed by the District as of January 1 of the report year; and
8. The name, business address and telephone number of each member of the Board and its chief administrative officer and general counsel, together with the date, place and time of the regular meetings, if any, of the Board.

IX. DISSOLUTION

The District may file a petition in the District Court for dissolution when there are no financial obligations or outstanding bonds, or any such financial obligations or outstanding bonds are adequately secured by escrow funds or securities meeting the investment requirements in part 6 of article 75 of title 24, C.R.S., and upon an independent determination by the Board of Trustees of the Town that the financing purposes for which the District was created have been achieved and that ongoing maintenance obligations of the District will be taken over by an

appropriate and authorized entity. Dissolution of the District is subject to approval of a plan of dissolution meeting the requirements of part 7 of article 1 of title 32, C.R.S., by the Weld County District Court.

X. MODIFICATION OF SERVICE PLAN

The District will obtain approval of the Town before making any material modifications to this Service Plan. Material modifications include modifications of a basic or essential nature including additions to the types of services provided by the District, or changes in debt limit or revenue sources that adversely affect the financial ability of the District to discharge its indebtedness. Any actions of the District which violate the terms of the intergovernmental agreement with the Town in the form shown in **Exhibit I**, shall be deemed to be material modification to this Service Plan and the Town shall be entitled to all remedies available under State and local law to enjoin such actions of the District or to enforce the Intergovernmental Agreement. This is not an exclusive list of all actions that may be identified as a material modification. Town approval is not required for modifications to this Service Plan necessary for the execution of financing or construction of public improvements already outlined in this Service Plan.

XI. RESOLUTION OF APPROVAL

The District incorporates the resolution of the Lochbuie Board of Town Trustees approving this Service Plan, including any conditions of approval, into this Service Plan to be presented to the District Court attached hereto and incorporated herein as **Exhibit H**.

XIII. INTERGOVERNMENTAL AGREEMENTS

The District anticipates that it will enter into an intergovernmental agreement with District 4 and District 6 if such an arrangement will result in the more efficient and economical provision of services to the Districts. It is also anticipated that the Districts may enter into intergovernmental agreements with South Beebe Draw Metropolitan District, the Town, or other appropriate governmental entities regarding services provided.

The form of intergovernmental agreement between the Town and the District is attached hereto as **Exhibit I** (the "Intergovernmental Agreement"). The District shall approve the Intergovernmental Agreement at its first Board meeting after its organizational election, in the same form as is attached and with any revisions as approved by the Town Board. Failure of the District to execute the Intergovernmental Agreement as required herein shall constitute a material modification and shall require an amendment to the Service Plan. The Town Board may approve the Intergovernmental Agreement at the public hearing approving the Service Plan. Except as otherwise determined by the Town Board, any subsequent amendment to the Intergovernmental Agreement approved by the Town Board shall not constitute a material modification of this Service Plan.

XI. CONCLUSION

This Service Plan demonstrates that:

a. Adequate service is not, and will not, be available to the area to be served by the District through the Town of Lochbuie or other existing special districts within a reasonable time and on a comparable basis;

b. The facility and service standards of the proposed District are compatible with the facility and service standards of the Town of Lochbuie;

c. There is sufficient existing and projected need for organized service in the area to be serviced by the proposed District;

b. are, together with all other requirements of Colorado law, included in the “political or governmental powers” reserved to the State under the U.S. Bankruptcy Code (11 U.S.C.) Section 903, and are also included in the “regulatory or electoral approval necessary under applicable nonbankruptcy law” as required for confirmation of a Chapter 9 Bankruptcy Plan under Bankruptcy Code Section 943(b)(6).

Any Debt, issued with a pledge or which results in a pledge, that exceeds the Limited Debt Mill Levy (except as permitted by Section VI(c). of the Service Plan) shall be deemed a material modification of the Service Plan pursuant to Section 32-1-207, C.R.S. and shall not be an authorized issuance of Debt unless and until such material modification has been approved by the Town as part of a Service Plan Amendment.

14. Revenue Bond Limitation. The District shall not issue revenue bonds.

15. Subdistrict Limitation. Except as permitted by the Service Plan, the District shall not organize any subdistricts or areas pursuant to Section 31-1-1101(1)(f), C.R.S., without the prior written consent of the Town Board, which shall be evidenced by a resolution of the Town Board duly considered and adopted at a regular or special meeting of the Town Board.

The District shall cause a written notice regarding the existence of the District to be recorded against all of the real property situate within the Service Area. Said written notice shall, at a minimum, be given in accordance with Section VIII of the Service Plan, shall describe the purposes for which the District was formed, and shall provide a summary of the Mill Levy Cap. The notice required by this Section shall be recorded prior to the date on which property within the District is sold to third party purchasers for construction and sale of residential property. Such notice shall be filed with the Town Administrator and the Town Attorney's Office within thirty (30) days following the date on which the same has been recorded in the real property records of Weld County, Colorado.

19. Annual Report. The District shall file an annual report ("Annual Report") to the Town Clerk each year following the year in which the Order and Decree creating the District has been issued by the District Court for and in Weld County, Colorado, containing the information set forth in Section VIII of the Service Plan.

20. Limited O&M Mill Levy. Subject to the limitations of the Mill Levy Cap, the District may impose a Limited O&M Mill Levy to fund administrative, operating, and facilities maintenance expenses, including the repayment of any advances provided to the District for such purposes. The actual Limited O&M Mill Levy to be imposed will be set by the District Board as required to fund the District's operating and administrative expenses. The Limited O&M Mill Levy shall not exceed 5.000 mills without a corresponding reduction in the Limited Debt Mill Levy (50.277 mills), so that the combined total mill levy will not exceed the Mill Levy Cap of [INSERT] (55.277) mills. The Limited O&M Mill Levy may be adjusted to take into account legislative or constitutionally imposed adjustments in assessed values or the method of their calculation, and 2018 shall be the base year for calculation of any adjustments such increases or decreases to be determined by the Board in good faith (such determination to be binding and final) so that to the extent possible, the actual tax revenues generated by the mill levy, as adjusted for changes occurring after January 1, 2018, are neither diminished nor enhanced as a result of such changes. For purposes of the foregoing, a change in the ratio of actual valuation shall be deemed to be a change in the method of calculating assessed valuation.

21. Dissolution. Upon an independent determination of the Town Board that the purposes for which the District was created have been accomplished, the District shall file a petition(s) in the District Court for and in Weld County, Colorado, for dissolution, which petition(s) shall contain a plan for dissolution, if required. If a plan for dissolution is required by the Special District Act, the Board agrees to submit such plan(s) to the Town Administrator and Town Attorney for review and approval prior to submitting the petition(s) for dissolution to the District Court. Any petition(s) for dissolution shall be filed by the District with the District court within ninety (90) days following the date on which the Town Board has made the determination that the purposes for which the District have been created have been accomplished, unless: (1)

the Town Board consents to a longer time period in writing; or (2) a different time period is required by the Special District Act.
